ATTACHMENTS

Reasons to choose attachments from Holms

Reliability

When you choose Holms you choose an attachment that is designed and manufactured to extremely high standards of quality. This means you've chosen a durable attachment that will be used year after year in the toughest applications.

Support

We deliver and support our products all over the world. Being a global supplier insures you that you'll have access to Holms parts and technical advice from one of our dealers or from us directly.

Design

Our products are thoughtfully designed with the user in mind. We incorporate details to make the job easier; both in operation and maintenance. These details increase your efficiency and promote longer life to increase the return on your investment.

Performance

When it's about performance you choose Holms for a job done right the first time. We manufacture premium tools for those customers with a priority on performing quality work, everyday, year after year.

HOLMS

HOLMS PH Pickup Sweeper

When you need the best

Holms PH is ideal for sweeping with wheel loaders. The sweepers pickup performance is exceptional and it can easily replace dedicated sweeping machines. Our suspended design and dual motors insure better surface cleaning and decreased damages. Optional gutter brushes can increase efficiency.

Three sizes available: PH220, PH250, PH300

HOLMS

HOLMS PL Pickup Sweeper

A compact pickup sweeper

Holms PL is a flexible sweeping machine for compact loaders and skidsteers. The compact design with low height gives good visibility. With a floating bracket and suspended brush the sweeper follows the terrain without much operator adjustment. A side brush option is available.

Available in three sizes: PL150, PL185, PL215

HOLMS

HOLMS SL Angle Sweeper

Standard duty angle sweeper
that gets the job done

Holms SL is a versatile sweeper for skidsteers and smaller loaders. The SL has the same suspension design and long list of features as our larger sweepers with a smaller 28" diameter brush. This provides you a value product that is ready for tough conditions. The SL is standard with manual angling but you can optimize your investment with options like hydraulic angling and a dust control water system. (Optional Swish brush shown)

Four sizes available. SL200, SL200, SL250, SL280

HOLMS

HOLMS SH Angle Sweeper

Powerful and efficient sweeping

Holms SH is a more robust design for work with higher speeds, more difficult jobs and varied surfaces. The SH features a larger 36" diameter brush for high performance sweeping. The suspended design with down pressure indicator insures a proper sweeping position to increase brush life and terrain contouring. (Optional Swish brush shown)

Three sizes available: SH250, SH300, SH350

HOLMS

HOLMS SP Angle Sweeper

Super duty sweeper for superior performance

Holms SP is an extremely sturdy sweeper for industrial sweeping using larger wheel loaders. It connects to the loaders attachment bracket like our other models making changing attachments easy. The SP is standard with larger gauge brushes to handle the most stubborn jobs.

Available in three sizes: SP250, SP300, SP350

HOLMS

HOLMS DUO Angling Pickup Sweeper

COMING SOON: A dual service sweeper

Holms Duo is a uniquely versatile sweeper that transforms from an angle sweeper into a pick-up sweeper with removable hydraulic bucket. This product is designed for skidsteers and smaller loaders.

Available in three sizes; DL150, DL185, DL215

HOLMS

HOLMS SC

A sweeper for excavators

Holms SC is designed for sweeping in places that are difficult to access. It can be used in a variety of specialist areas such as sweeping roofs, uncovering fragile utilities or cleaning a dump area for trucks.

Available in three sizes: SC100, SC150, SC200

HOLMS

HOLMS HB

The perfect brush for excavators

Holms Brush is a simple and stable design that provides an inexpensive sweeping tool that doesn't require hydraulics. Available with interchangeable brackets and two different thicknesses on the brush. It's a convenient tool that can stand by itself without support.

Available in four sizes: HB150, HB180, HB200, HB250
